### Introduction

With 5-6 years of web development background, I have experience in creating and maintaining highly efficient software solutions to enhance business productivity. I am well-versed in all aspects of the software development lifecycle.

My professional skills include expertise in Core PHP and its frameworks such as Laravel, CodeIgniter and WordPress. I am also proficient in PHP Unit Testing, HTML, CSS, JavaScript, Ajax, JSON, jQuery, Bootstrap, RESTful APIs, DBMS (MySQL), SQL, and Version Control Systems (Git).

I have the ability to manage projects both independently and as part of a team. I am an adaptive professional and can thrive in challenging environments. Furthermore, I am a well-motivated and committed individual who excels under pressure to meet deadlines.

### Experience
