

Yasir Khan

Flutter Developer

I am a skilled Flutter developer specializing in cross-platform mobile app development. I excel in UI design, state management (GetX), and integrating third-party APIs (Google Maps, Firebase, Stripe). I am a collaborative team player committed to delivering exceptional mobile experiences. Let's build innovative apps together.

WORK EXPERIENCE

Flutter Developer Freelance

04/2022 - Present

Achievements/Tasks

- Developed and deployed multiple cross-platform mobile applications using Flutter framework.
- Implemented custom UI designs and animations to create visually appealing user interfaces.
- Integrated various third-party APIs and services, such as Firebase, Google Maps, and social media platforms.
- Implemented secure user authentication and authorization systems to protect user data and ensure privacy.
- Collaborated with clients to understand their requirements and provide technical solutions that met their needs.
- Optimized app performance and responsiveness by profiling and optimizing code, reducing memory usage, and improving app startup time.

EDUCATION

Computer Software Engineering University of Engineering and Technology Mardan

08/2019 - Present

Mardan, KP

Courses

- Developed an ecommerce android app as semester project.

SKILLS

Dart

GetX

Rest Api Integration

Firebase

GoogleMaps

JsonSerializable

Data Structures

Git Version Control (Git, GitHub)

C++

OOP

Figma

Testing and Debugging

Design and Architecture

PERSONAL PROJECTS

Final Year Project (08/2022 - 06/2023)

- Created a medical app which connects Doctors and Nurses to job providers, Medical Professionals follow Organizations and they can then view their job ad posts and apply to them.
- Enabled Organizations to send automated emails to start a connection with their preferred applicant.
- Also providing nurses with part time jobs as they provide health care services to patients by visiting them.
- Added Location functionality so that patients can also view nearby hospitals/labs and nurses.
