SKILLS

- Web development
- Communication Skills
- Managment Skills
- Artificial Intelligence
- cloud Computing

EXPERIENCE

- Training

National Freelancing training Program

2022-2023

I completed an internship in the National Freelance Training Program, specializing in web development. During this program, I gained hands-on experience in various aspects of web development, including front-end and back-end technologies. I collaborated with a diverse team of professionals, honing my teamwork and communication skills. Through this internship, I developed a strong foundation in creating dynamic and responsive web applications.

- Bachelors

UET Mardan

2020-2024

I pursued a Bachelor's degree in Computer Science from UET Mardan. Throughout my academic journey, I gained a comprehensive understanding of computer science principles and their practical applications. My coursework covered a wide range of subjects including programming languages, data structures, algorithms, database management, and software engineering. I actively participated in various extracurricular activities and projects, enhancing my problem-solving abilities and teamwork skills. My education equipped me with the knowledge and skills necessary to excel in the field of computer science

- Virtual Internship

Interns PK

I also completed an internship at Interns PK, where I specialized in web development. Additionally, I have undertaken several projects independently, further refining my skills and expertise in web development

HOBBIES
